**BALANCE SHEET IMPACT**
Cash impacted by above and by the unwind in balance sheet, following reduced order book & level of trade

* SMEIP = Structural, Mechanical, Electrical Instrumentation & Piping

### F2018 REPORTING STRUCTURE

- **CONSTRUCTION**
  - South Africa
  - Rest of Africa

- **INVESTMENTS & CONCESSIONS**
  - Transport
  - Real Estate

- **ENGINEER, PROCURE AND CONSTRUCT**

- **MANUFACTURING**
  - Fibre Cement
  - Steel
**F2018 Results In Context**

**Construction**

- **Losses in Construction: SA**
  - **Actual PBIT**
    - **F2018**: $-R234m^*$
    - **F2017**: $-R744m^*$
    - Includes impact of VRP contribution R159m & NMPP impairment R244m

- **Achieved Improved Execution**
  - Reduction in contract losses over F2017; profit from contracts trading ahead of plan > contracts behind plan
  - H2 cost overruns on some contracts; partially due to delayed sub-contractors & suppliers payments in Q3. Up to date from Q4
  - Declining order book with exception of Building:
    - Continued impact of weak market conditions; delay in contract awards
    - Opportunities not pursued following closure and/or rationalisation of businesses
    - Nuclear, Oil & Gas & Plant & Equipment
  - Delayed/non-payment on certain public works contracts
  - R60,0m in retrenchment costs
  - R64,0m profit on sale of PPE^*
  - R13,1m annual cost removed by relocating to Spartan - benefiting future years

* PPE: Property, Plant & Equipment

---

**Total Revenue -13%**

**Core Operating Loss +69%**

- **F18 versus F17**
F2018 RESULTS IN CONTEXT
CONSTRUCTION REST OF AFRICA

**LOSES IN CONSTRUCTION: REST OF AFRICA**

- Achieved improved execution
  - Reduction in contract losses over F2017; profit from contracts trading ahead of plan > contracts behind plan
- Good contract delivery; no contract losses - profitable in H2
- Unsecured work materialising later than planned
- Slight under-recovery of overheads
- Delayed sub-contractors & suppliers payments in Q3. Up to date from Q4
- R2.5m in retrenchment costs
- R11.8m in forex losses
- R9.0m annual cost removed by relocating to Boksburg - benefiting future years

<tr>
<td><strong>- R1 299m</strong></td>
<td><strong>- R33m</strong></td>
</tr>
<tr>
<td><strong>- R1 392m</strong></td>
<td><strong>- R71m</strong></td>
</tr>
</tbody>
</table>

#### KPONE CONTRACT UPDATE

- **H2 F2018:**
  - Client requested plant handover on 2 fuels only (not the planned 3 fuels due to gas unavailability)
  - Additional losses; further costs incurred to completion; forex losses; additional change to earnings reported (approach to timing of certain claims)

- **Further delays due to:**
  - Currently issues around water treatment plant & steam quality
  - Lack of gas
  - Non-availability of grid to receive power during commissioning phase

- **Plant in final commissioning phase** (only reliability & performance testing remain - to commence shortly)

- **Expected completion date now end-October**
  - Later completion date does not translate to daily penalties if group is not responsible for the delay
  - LDs capped at $62.5m vs group assessed claims to which it is entitled
  - Additional cost to complete requires funding, budgeted for

- **Other group claims progressing to finalisation; possibly of substantial benefit; timing uncertain**
SOLID PERFORMANCE BY INVESTMENTS & CONCESSIONS

TRANSPORT

- **Intertoll Europe** delivered strong results - exceeding budget
  - Improved operational performance & weaker Rand
  - However, reduction in H2 profit due to:
    - Project exited
    - Additional tender development costs
  - Targeted pipeline projects have come to market; others to follow in F2019
    - 3 pending awards
  - Includes upward Fair Value Adjustments of R156.2m (F2018: R98.2m)

- **Intertoll SA & Rest of Africa**
  - Normalised performance following H2 F2017's unexpected claim; strong results from Zimbabwe
  - Conclusion of Q-Free toll road equipment supply partnership in Intelligent Transport System, but no awards; unsuccessful with e-tag tender
  - Bid submissions for O&M projects in Cameroon (shortlisted), Togo (preferred bidder), Mozambique (awaiting appointment), Kenya & DRC - Zambia (awarded, undertaking feasibility studies)
  - Proposals submitted for InstaToll® solution in Mozambique & Zimbabwe; await award from Zimbabwe
SOLID PERFORMANCE BY INVESTMENTS & CONCESSIONS

REAL ESTATE

SA:
- Projects slow-to-market (mainly due to poor SA market confidence & group capital constraints)
- Operating assets performing well: Tshwane House, Capital Place, Kalahari Mall, North Point (Phase 2 to be launched)
- 366 residential units under development, with 60 complete
- Further 10,000 in pipeline
- R32.6m impairment of investment property in H2 (weaker market)

Rest of Africa:
- Delayed project commencement due to group capital constraints
- Good development progress on office and hotel projects in Ethiopia
- 60% interest in office block in Ivory Coast - but on hold due to development funding
- Ongoing co-investment vehicle fundraising discussions

### Fibre Cement - Everite
- Performance in line with expectations, as tough trading environment worsened with pressure on pricing
- Impacted negatively by power interruption in H1
- Countered by enhanced complementary traded goods, exports, improving production efficiencies & strategic supply chain initiatives

### Steel – BRI & Pipe
- Volume & price recovery in Pipe
- BRI volume improvement impacted negatively by margin pressure in oversupplied market

#### Disposal: Pipe
- Deal successfully concluded in H1
- Proceeds received in H2

#### Disposal: Everite
- Progressing well; D.D. nearing conclusion; legal drafting commenced
- Deal conclusion in F2019

#### Disposal: BRI
- Multiple expressions of interest to be assessed by Independent Board
- Deal conclusion in F2019

### RATIONALISATION & RESTRUCTURE INTERVENTIONS

Management has focused on rightsizing & restructuring structurally unsustainable Construction SA & EPC, including:

1. **Initial steps**
   - Reassessment of F2018 & F2019 forecasts for Construction & EPC
   - Excluding contract profit unsecured
   - Including full overheads & “unwind” of balance sheet**

2. **Cost reduction to match reduced business size**
   - Rationalisation & standardisation of all overheads - Construction SA, Africa, EPC & Corporate Office
   - Result: Further retrenchments required*
   - Aggressive reduction in overheads

3. **Reduced level of unsecured work in budget**
   - Moving quickly to next step (step 4) of further overhead cut if needed
   - Critical evaluation of contracts to be pursued
   - Only in disciplines with available market, internal competency & proven track record
   - Focused tendering on contracts with:
     - >80% probability of being awarded within construction competency & skill set, minimum gross profit margins & related to remaining sustainable businesses

4. **Further overhead rationalisation**
   - To levels supporting secured and limited unsecured work only, should higher levels of unsecured revenue be unattainable in short term

5. **Cash conversion of assets**

* Largely provided for in H1F2018 results and implemented in H1 & Q3 F2018
** Reduction of balance sheet with a reducing level of trade and order book
Management has focused on rightsizing & restructuring structurally unsustainable Construction SA & EPC, incl:

1. **Initial steps**
   - Reassessment of F2018 & F2019 forecasts for Construction & EPC

   **Reassessment based on**
   - Available market & reliability of market demand,
   - Available internal core competency & skills
   - Sustainability of business

Resulted in the following structural changes:

<table>
<thead>
<tr>

<td>Completed June 2018</td>
<td>Benefits to flow in F2019</td>
</tr>
</tbody>
</table>

* As per interim results presentation

### 3 Reduced level of unsecured work in business plan

- **SA**
  - Civils – 100% conversion - 1 contract secured
  - Housing – no contracts secured; at full capacity
  - Building – contracts awarded, but brand impacted; focus on contract replacement

- **Rest of Africa**
  - Strong order book in West & Central Africa

- **SA**
  - 31% of forecast unsecured awards secured since year end (in harsh market environment)
  - Focus on contract replacement
  - Increased cost of doing business

- **Rest of Africa**
  - 60% of forecast unsecured awards secured since year end
  - Increased cost of doing business

* As per interim results presentation
### RATIONALISATION & RESTRUCTURE INTERVENTIONS

#### 4. Further overhead rationalisation

*As per interim results presentation

NOTE: Asset-to-cash conversion is estimated monthly per the liquidity model reducing by cash collected & increasing with new opportunities
LIQUIDITY MANAGEMENT

Robust monthly consolidated liquidity model, including 12 months look ahead

IBR* review conducted on liquidity model &
Independent Contracts Officer review of financial impact of large & risky contracts

1. Manufacturing and Investments & Concessions clusters
   - Based on estimated monthly free cash from operations
   - Manufacturing to date of sale

2. Construction & EPC clusters
   - Forecasted monthly secured contract cash profit less total expected business overheads +
     - Reflecting cash generation or absorption prior to contract awards
   - Forecasted business unit interventions, including, overhead reductions & contract improvements**
     separately monitored +
   - Forecasted business unit unsecured contract cash +
   - Net-current-liability position at year forecast as outflow, based on expected monthly timing
     - Introduction of normalised working capital relevant to reduced business size
   - EPC net-current-liability working capital is fully forecast as an outflow

3. Kpone
   - Due to materiality, monthly cash outflows & inflows separately monitored

4. Other liquidity enhancing initiatives incl.
   - Converting long term assets to short term
   - Acceleration of claim opportunities

* International independent business review
** Expected enhancement on contracts

CASH - (Rm) H1 F2018 H1 F2017
At 31 Dec 2017 / 30 June 2017 1,710 2,265
At 30 June 2018 / 31 Dec 2017 1,345 1,710
Outflow -365 -555

LIQUIDITY MODEL ASSUMPTIONS

1. Secured Construction & EPC contract trade at forecasted tendered margins
   - Reforecast monthly and model constantly updated
   - General provision for contract losses included
   - “Stretch” targets only included when highly probable
   - Any further contract losses/reduction in cash profitability, less provision, directly impact model

2. Construction contracts identified as >80% probability traded in forecast period
   - Some risk with regards to timing and probability, experienced delays
   - Increased cost of doing business impacting
   - Low level of cash profits included from unsecured work
   - so not to materially impact liquidity

3. Secured & unsecured cash in 1 & 2 above = 20% of total liquidity enhancement est. for F2019

4. Further overhead reduction strategies implemented & achieved
   - 10% of total liquidity enhancement estimated

Liquidity: Low Medium High
Sensitivity: High Medium Low
LIQUIDITY MODEL ASSUMPTIONS (contd)

5. EPC business rationalised within the period  
   Impact: Low

6. Kpone completed within forecast cost & time est.  
   - Closely monitored by Exec & Board; incl. est. cost to completion date  
   - Cash collected from other cash-enhancing actions being applied to fund Kpone  
   Impact: Medium

7. Free cash realised from I&C and Manufacturing (pre sale date)  
   - Cash from operations  
   Impact: High

8. Net current liability payments  
   - Based on expected timing of outflow, normalised working capital relevant to new group size  
   Impact: Medium

9. Other cash enhancing activities - long term to current assets  
   - R227m collected by June 2018  
   - R630m to be realised in coming 12 months  
   Impact: Low

LIQUIDITY POSITION

H1 Liquidity model  
- H1 F2018 presentation showed a timing mismatch  
  - Immediate need for additional cash for Kpone as well as Construction balance sheet unwind as contracts near completion and rate of trade decreases  
  - VS  
  - Rate at which claims & debtors could be realised to fund outflows  
  - Satisfied by bridging loan  
  No need to access assets outside of Construction

Year end liquidity model  
- Group has cash, but limited free cash &  
  - Group is forecasting positive net current assets (12-month forecast) but due to:  
    - Conditions weakening in Q4  
    - Add cost to complete on Kpone  
    - Some Construction losses in H2 F2018 although better than prior year  
    - Construction forecast tempered, resulting in reduced expected cash inflow  
- Board assessed that further liquidity safety margin required

Focus areas to address liquidity:  
- Partial disposal of ICP

Action:  
- Board assessed that further liquidity safety margin required
### CLUSTER LIQUIDITY POSITION

#### INVESTMENTS & CONCESSIONS
- Stable; cash from operations being generated

#### MANUFACTURING:
- Stable; cash from operations being generated

#### CONSTRUCTION SA (where previous cash pressure centred)
- Showing small improvement

#### REST OF AFRICA (where previous cash pressure centred)
- Improvement experienced

#### EPC
- Still short term cash pressure
- Mainly additional costs to complete Kpone
- Cash collected from other cash-enhancing actions being applied to fund contract
- Key risk: timing of expected cash collection vs required application of funds to the contract

#### GROUP:
- R5.1bn in guarantee contingent liabilities provided to 3rd parties
  - Includes Kpone guarantees
    - Gross max delay penalty capped at $62.5m
    - excl. counter, or other, claims group is legally entitled to & pursuing

### GROUP LIQUIDITY POSITION

#### At 30 June 2018
- Group total assets > total liabilities by R1.1bn
- Group is a solvent entity
- Group current liabilities > current assets by R1.0bn
- Mainly short term bridging funding & Kpone

#### Partial disposal of I&C concessions assets in Eastern Europe
- Held through JV with Aberdeen in Intertoll Capital Partners B.V. (ICP)
  - Sale of 40% (10% remaining)
  - Subject to shareholder approval
  - Proceeds will settle R650m bridging funding
  - Therefore
    - Significant reduction in group current liabilities
    - Substantial liquidity improvement
  - Remaining I&C will consist of:
    - 10% of ICP JV with Aberdeen
    - Operations & Maintenance – Europe and Africa
    - Properties
    - Investments in JVs & Associates

#### In addition:
- Disposal of remainder of Manufacturing
  - Process on track
  - Proceeds expected in F2019
OPERATING ENVIRONMENT AFFECTED BY

**MARKET**
- Slow, but improving, response by DFIs* in participating in project preparation funding
- Prolonged incubation period for projects
- Increased competition from global competitors bringing funding into projects & entering African markets
- Reputational damage following Kpone issues & construction losses
  - Increased cost of doing business

**FINANCIAL CAPACITY**
- Liquidity constraints in the industry & in the group
- Constrained risk-bearing capacity due to weakening of group balance sheet following underperformance of multiple businesses & contracts

**HUMAN CAPACITY**
- Risk of key skills loss as a result of instability within the group & the industry

**GEOGRAPHIC**
- Continued low growth in global markets
- Negative perceptions about Africa by current & prospective partners

* Development Financing Institutions
DECREASING FOCUS GOING FORWARD ON EPC, TPS & CONSTRUCTION; board working with corporate finance advisors to evaluate various options to maximise shareholder value

**CONSTRUCTION**
- **South Africa**
  - Being rightsized for current market conditions
  - Operating on a lower cost structure
  - Access to guarantees needed
- **Rest of Africa**
  - Good, secured order book esp. in Western & Central African mining sectors; profitable, secured order book esp. in the mining sector; profitable in F2019
  - Recently awarded contracts will enhance business performance for F2019
  - Will require low to nil investment
  - Operating on a lower cost structure
  - Streamline/cost effective African operating structure
  - Access to guarantees needed

**EPC & TPS**
- Some retrenchments; consultation started with employees

**CORE FOCUS OF THE GROUP GOING FORWARD**

**DEVELOPMENTS & INVESTMENTS**
- **Intertoll Europe & Africa**
  - Attractive outlook & strong pipeline
  - But utilisation of free cash by Construction inhibits further investment & growth
  - Project management capabilities - extension to existing development management competence
  - Technical advisory services on a fee income basis - D&I
- **GS Properties**
  - Return to profit dependent on access to capital for continued project progress

**OPERATIONS & MAINTENANCE**
- **Intertoll Africa, O&M Power & Water**
  - Solid growth off high base
  - Pursuing new SA projects; several tenders & expanding into related work beyond tolling
  - Well-advanced O&M project pipeline in select African countries
  - Negotiating for extension on current O&M Power projects
  - In-house toll system approved by SANRAL, ready to roll out in Rest of Africa
  - Negotiating extension on current O&M Power projects
MEDIUM TERM
REVISED STRATEGY & STRUCTURE

GROUP FIVE
“Growing Infrastructure Solutions”

Developments & Investments

Operations & Maintenance

Strategic benefits

Business Generation
Individual business units generate execution opportunities for others

Differentiated Market Position
Portfolio capability that drives a differentiated market positioning & value proposition

Capital Base Leverage
A single capital base can be leveraged across the portfolio to generate strong returns

...delivered through a synergistic portfolio of businesses...

...operating in key sectors...

...and working with proven partners

Funders

Decreased focus

D&I AND O&M:
DIFFERENTIATED STRATEGY UNDERPINS COMPETITIVE ADVANTAGES

Principles & approach underpin a long history of success

Execution Capabilities

- Proven operational track record
- Tried & tested development process
- Experience in deal-structuring skills
- Ability to develop partnerships, which leads to increased local market knowledge

Partnerships

- In-country professional relationship network
- Formation of strategic alliances (e.g. Aberdeen, AFC, DBSA, Meridiam)
- Partner with other equity sponsors to contribute toward development costs (e.g. Pembani-Remgro, Meridiam)
- Ability to share risks across partnership network resulting in lower risk profile for Group Five

Core Focus

- Focus on development projects in targeted countries
- Four key infrastructure pillars
  - Transport
  - Water
  - Power
  - Real Estate
- More focused pipeline can deliver a consistent return

Intertoll Europe
Focus on improved operational efficiencies and revenue enhancement. Growth for economies of scale

Intertoll Africa
Diversity revenue streams and geographic expansion into new territories

G5 Properties
Grow a diversified portfolio with a focus on execution of targeted Africa projects

Notes: AFC = Africa Finance Corporation, DBSA = Development Bank of Southern Africa
D&I AND O&M: STRATEGIC FOCUS TO DRIVE SUBSTANTIAL ORGANIC GROWTH

REGIONAL STRATEGIC FOCUS GOING FORWARD

1. Europe
   - Strategic focus: Grow existing & new geographies
   - Expand O&M within regions for improved margins & new opportunities

2. Sub-Saharan Africa
   - Pursue strategic partnerships “Africa Inc.” to offer
     - Comprehensive solution, incl. technical & financial support for infrastructure, power & real estate
     - Alignment with SOEs
     - Relationships already in place for road, sea & air port projects
   - D&I to act as enabler of growth for O&M

3. South Africa
   - Pursuit of PPPs as market activity increases - increased government appetite
   - Residential real estate a key focus due to current undersupply

D&I AND O&M: FINANCIAL SNAPSHOT
DEFINED VISION & STRATEGY FOR D&I AND O&M, UNDERPINNED BY KEY PERFORMANCE INDICATOR

Strategy requires little to no funding

### Order intake at reduced levels
- **Continued overall decrease**
- **Remains challenging in SA**
- **Rest of Africa imminent awards**

### CONCLUSION

- **F2018 was extremely taxing**
- **Kpone very disappointing. Challenges remain, but progressing to conclusion**
- **Some pleasing improvements in Construction excl. Kpone**
- **Solid performance in Investments & Concessions & Manufacturing**
  - Disposal of Manufacturing progressing as planned
- **Key decision made to decrease focus in Construction & EPC**
- **Clear focus to grow areas of consistent track record - D&I and O&M**

---

* Values include only Group Five’s portion of fully secured construction work

FORWARD LOOKING STATEMENTS

Certain matters discussed in this document regarding Group Five’s future performance, that are neither reported financial results nor other historical information but involve known and unknown risks based on assumptions regarding the group’s present and future business strategies and the environments in which it operates now and in the future and uncertainties which relate to events and depend on circumstances that will occur in the future. These matters are regarded as ‘forward-looking statements’. They involve and include initiatives and the pace of execution thereon and any number of economic or geopolitical conditions, including factors which are in some cases beyond management’s control and which may cause the actual results, performance or achievements of the group, or its industry, to be materially different from any results, performance or achievement expressed or implied by such forward-looking statements. They furthermore involve and include, without limitation, the group’s ability to successfully control costs and execute on and achieve the expected benefits from operational and strategic initiatives, the availability of necessary skilled staff, disruptions impacting the execution of the group’s strategy and business, including regional instability, violence (including terrorist activities), cybersecurity events and related costs and impact of any disruption in business, political activities or events, weather conditions that may affect the group’s ability to execute on its contracts, adverse publicity regarding the group, initiatives of competitors, objectives to compete in the market and to improve financial performance, all forward-looking financial numbers and statements, currency translation, macroeconomic conditions, growth opportunities, contributions to pension plans, ongoing or planned real estate, ongoing or planned contracts and investments and future capital expenditures, acquisitions, divestitures, financial conditions, dividend policy and prospects, the effects of regulation of the group’s businesses by governments in the countries in which it operates and all other statements that are not purely historical. These forward-looking statements have not been reviewed or reported on by the group’s auditors. Such statements are based on management’s beliefs as well as assumptions made by, and information currently available to, management. Forward-looking statements made in this document apply only as of the date of this document.

Forward-looking statements are inherently predictive, speculative, are not guarantees of future performance and are based on assumptions regarding the group’s present and future business strategies and the environments in which it operates now and in the future. All of the forward-looking statements made in this document are qualified by these cautionary statements and the group cannot assure the reader that the results or developments anticipated by management will be realized or, even if realized, will have the expected consequences to, or effects on, the group and its business, prospects, financial condition, results of operations or cash flows.

Readers are cautioned not to place undue reliance on these forward-looking statements in making any investment decision. Neither Group Five nor any of its respective affiliates, advisors or representatives shall have any liability whatsoever (based on negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. While the group may elect to update forward-looking statements from time to time, it specifically disclaims any obligation to do so, even in light of new information or future events, unless otherwise required by applicable laws. The list of factors discussed herein is not exhaustive. This should be carefully considered when relying on forward-looking statements to make investment decisions.

APPENDICES

SEGMENTAL OUTLOOK WITH ORDER BOOK ANALYSIS
D&I LOOKING FORWARD  
TRANSPORT, POWER & WATER

Intertoll Europe
- Secured advisory role in a project and in negotiation to conclude a RRM\(^*\) project in Turkey
- In line for 3 Polish projects - preferred bidder on 2
- Attractive outlook; focus on leveraging partnerships such as Aberdeen
- Exciting prospects in Greece, Czech Republic, Poland, UK & Balkans

But utilisation of free cash by Construction inhibits ability to further invest & grow

Intertoll Africa – SSA\(^*\)
- D&I a 10% shareholder on 2 toll concession projects ($800m Kenya & $600m DRC / Zambia)
  - Dependent on funding availability
- Prequalified for the Accra Tema toll concession

Power – SSA\(^*\)
- In-principle agreement to form strategic alliance with a fund for rolling out projects
- Cautious approach, potential projects being considered

Water – SSA\(^*\)
- Ongoing discussions with strategic partners
- Testing the market - submitted request for proposal

---

D&I LOOKING FORWARD  
REAL ESTATE

South Africa
- Commercial close of office PPP project imminent
- Launch of 2 residential projects located in Johannesburg north
- Commencement of North Point Industrial project phase 2

Rest of Africa
- Co-investment vehicle capital raising – circling back to prospective investors
- Commercial close of Conseil office block in Ivory Coast dependent on equity partners being secured
- Progress towards commercial close of office project in Ethiopia
- Finalisation of implementation structure for Ethiopian hotel project

---

\(^*\) Sub-Saharan Africa  \(^*\) Routine Road Maintenance
Diversifying into areas beyond tolling:
- Intelligent Transport Systems, traffic incident management, network surveillance, weigh in motion
- Minimal risk; closely aligned to toll fee collections; nominal investment capital required

In-house toll system approved by SANRAL; ready to roll out in Rest of Africa (already installed in N4, Marianhill and Zimbabwe)
- Roll-out of low cost toll booth solution; InstaToll® solution in urban areas & secondary road networks
- Proprietary Freeway Management System (FMS) software to support RRM^ / (HMS) Highway Management Systems growth

Well advanced O&M project pipeline in select countries:
- Kenya (D&I is preferred bidder on a project where Intertoll would undertake O&M work)
- Zambia to DRC (D&I is preferred bidder where Intertoll would undertake O&M work)
- Mozambique (close to being awarded - not a concession, so no investment required)
- Cameroon - shortlisted for a project, incl. equipment supply, toll system & toll collection, as well as RRM
- Togo - preferred bidder on equipment supply, toll system & toll collection & RRM
- Zimbabwe - award for RRM project pending
- South Africa
  - Major CTROM project and key contributor to SA operations - extended by a year from 2019 to 2020
  - Several SANRAL RRM tenders

LOOKING FORWARD

- Further right size business relative to weakening current market conditions
  - Downsize plant & equipment to complement rightsizing of business
  - Flatter structure required to achieve this, restructuring target completion H1 F2019
  - Streamlined service offering, focused on key disciplines & supported by proven core competencies
  - Successful track record in the businesses retained in Building & Housing

- Civils cut by 75%
- Exited disciplines - Trade out existing Nuclear contracts
- Continued focus on efficient execution of current contracts
- Repair & re-establish our reputation & brand with partners
- Board working with corporate finance advisors to
  - Evaluate various options to maximise shareholder value
  - Identifying a structure to address the Group’s VRP commitments
CONSTRUCTION - REST OF AFRICA (PROJECTS / SMEIP)
LOOKING FORWARD

- Strong track record over last 10 years on over-border contracts
- Focus on continued effective project management & delivery excellence
- Focus only on SMEIP^ niche market
  - High margins & barriers to entry - specialist space; handful of competitors
  - Leaner, more agile operating structure
  - Forging solid relationships to secure repeat business
  - In select territories where group is experienced and has reputation for delivery
- New prospects due to:
  - Opportunities in countries previously worked in
  - Expansion of EPCM* & client base
  - Demand for exotic minerals in commodity markets
  - Political stability in proven territories
- Good, secure order book, relative to resized business, in DRC, Guinea, Zambia & Burkina Faso
- Strategic focus:
  - Medium to large Mining & Industrial projects
  - Small to medium select Oil & Gas and Power projects
  - Select mining procurement & construction joint ventures
  - Long-standing relationship in Mining with trusted engineering partner
- Board working with corporate finance advisors to evaluate various options to maximise shareholder value

* EPCM = Engineer, procurement, construction, management  ^ SMEIP = Structural, Mechanical, Electrical Instrumentation & Piping

### MANUFACTURING LOOKING FORWARD

**Fibre Cement - Everite**

- Conclude the disposal in F2019
- Management will continue to focus on AAC* process improvements & volume growth
  - Will contribute positively to earnings in F2019
- New markets and products will be sought
- Internal efficiency projects will continue to reduce overall production cost

**Steel - BRI**

- Conclude the disposal of the 50% shareholding in this business
- Management focus will remain on production & process efficiencies and remaining the lowest cost producer of reinforcing steel products

*AAC = Aerated Autoclaved Concrete*
